Best Papers

Paper id	Paper title	Author
163	OBJECT DETECTION AND CRIME INVESTIGATION	Dr.THIAGARAJAN KITTAPPA
181	Cattle Disease Prediction Using Machine Learning Algorithms	pavan kumar chitturi
251	Brain tumor classification within 2D MRI Images	Gouri Morankar
316	Advanced Approaches for Malware Detection in IoT Networks: A Comprehensive Evaluation	Amogh Deshmukh
376	An Intelligent analysis of Waste Identification and Segregation using Swarm optimization	Chelukali Ashish Kumar
438	Employability Prediction of Students using Data Analytics and Machine Learning	Sivala Tharun Kumar Reddy
473	Development of Simulation Software under Latest RT-Linux Environment for Hardware-In-Loop Simulation Test bed	Rajesh Shankar Karvande
557	Soft Computing Methods for Noninvasive Monitoring of Chronic Diseases and Diagnosis	Dr. M. Poorani
588	Development of a robust pipeline for calculating the semantic similarity between text inputs using state-of-the- art NLP models	Dr Dhawaleswar Rao CH
668	Optimization Techniques for Supply Chain Management: Analyzing ACO and Alternative Methods	L SHERIN BEEVI
700	Continuous Sign Language Recognition using Encoder-Decoder architecture	Sneha Varsha M
750	Forecasting Crude Oil Prices with ARIMA and LSTM Bidirectional Models - A Comparative Analysis	M NAGESH
BN_7	AI-Powered Face Sketching for Criminal Identification	Mahesh Kumar S
